Assessed Standards	Evaluation Results

NAME AND SIGNATURE LABORATORY REPRESENTATIVE

SCJ certificate format - Components of Random Machines or Cabinets

Filling instructions

"Certified date"

Show the date the certificate is issued.

"Certified code"

Show the code or number that the certifying entity assigns to the certificate.

"Identification of the jurisdiction for which the certificate is issued":

Show the name of the Superintendent, position, institution and country. This is as in the following expression:

Mrs. Vivien Villagrán Acuña, Superintendent
SUPERINTENDENCY OF GAMBLING CASINOS
Chile

"Certifying entity":

Show the name of the certifying entity or laboratory that is accredited by the Superintendency of Gaming Casinos.

"Representative of the certifying entity":

Show the name of the representative of the laboratory or certifying entity that is accredited by the Superintendency of Gaming Casinos, which corresponds to the person who is responsible for the certificate issued.

"Assessment entity":

Show the name of the laboratory headquarters where the tests and / or essays are carried out to evaluate the gaming device.

"Evaluation manager":

Show the name of the person in charge of the evaluation process of the gaming device.

"Evaluated gaming device":

Show the name and code of the evaluated or certified gaming device, according to the Superintendency's nomenclature. For example: Cabinet or Gambling Machine (MM), Multi-position Gambling Machine (MMMP).

If in the certificate you want to certify more than one gaming device, you must Show as many names and codes of devices, as devices are.

"Name and model of the evaluated gaming device":

Show the commercial name of the evaluated or certified gaming device and, if it exists, the model or alphanumeric code that identifies the gaming device.

If you more than one gaming device is going to be approved in the certificate, it must be stated as many model names and codes as many devices are included on the certificate.

If the certificate is only for game equipment components, then do not complete this box.

"Name and model of the components of the evaluated play device":

Show the name of the components of the gaming device evaluated or certified, both hardware and software and, if it exists, the model or alphanumeric code that identifies them.

If you more than one gaming device is going to be approved in the certificate, it must be stated as many model names and codes as many devices are included on the certificate.

"Manufacturer":

Show the name of the manufacturer of the gaming device (s).

"Country of origin of the manufacturer":

Show the name of the country of origin of the manufacturer of the game equipment (s).

"Evaluated Standards":

List the standards that were evaluated for the gaming device (s) under review. For Gambling Machines or Cabinet (MM) and Multiposition Gambling Machines (MMMP) it should be Showd: Standards for Gambling Machines, Superintendency of Gambling Casinos (SCJ) - Chile, approved by Resolution No. 623 of December 27, 2013, as amended by Exempt Resolutions Nos. 84, 127, 289, 52 and 219, of April 1, June 16 and November 25, 2014, March 20, 2015 and April 1, 2019, all of the SCJ .

"Evaluation result":

Show the result of the evaluation performed by the laboratory to the evaluated game equipment (s), considering the options of: Compliant and Non-compliant.

Following the table, the name and signature of the laboratory representative must be entered.

If any of the data in the General Information box is not used, it must be completed with the phrase "Not applicable."

II. HARDWARE AND ASSOCIATED SOFTWARE

1. Name of the gaming device components

Filling instructions

Show the name of the components of the gaming device, both hardware and software. If it exists, the model or alphanumeric code that identifies it must be shown.

After the name of the cabinet components that are being certified a phrase must be added that identifies with which cabinet or cabinets they are compatible, because from this information the Superintendency will evaluate the relevance of the "modification" of the game, in this case, 1 or more slot machines or cabinets.

In this regard, a phrase such as the following is suggested: "The above components are compatible with the following cabinets or slot machines: XX, YY and ZZ, which was certified by XXX by means of certificate xxx, dated xx/xx/xxxx". Where the name of each of the cabinets must correspond exactly to the one used in the certificate issued for the respective cabinet.

2. Description of the gaming device components

Filling instructions

Include a general description of the components of the gaming device, both hardware and software, pointing out their main characteristics.

Show if it has any special characteristics, such as if it corresponds to a multi-position slot machine.

The main components that are certified correspond to the following:

Component	Part Number or Model Number

Filling instructions

Add the cabinet or slot machine components being evaluated to the chart. Include, as appropriate, but not limited to, bill validator, ticket printer, displays or monitors, logic box components, communications elements, printed circuit board (PCB) and other additional hardware

- In "Component" Show the name of the component.
- In "Part number or Model number" Show the part number or code or model number or code assigned by the manufacturer, as appropriate.

3. Dimensiones

Filling instructions

When the certificate is only for game equipment components, it does not apply.

4. Identification plate

Filling instructions

When the certificate is only for game equipment components, it does not apply.

5. Associated software evaluated

Filling instructions

When the certificate is only for game equipment components, it does not apply

6. Memories

Filling instructions

When the certificate is only for game equipment components, it does not apply

7. Random number generator

Filling instructions

When the certificate is only for game equipment components, it does not apply.

8. Ticket validator

Filling instructions

When the certificate is only for game equipment components, it does not apply.

9. Game card

Filling instructions

When the certificate is only for game equipment components, it does not apply.

10. Online Monitoring and Control System

Filling instructions

When the certificate is only for game equipment components, it does not apply.

11. Security

Filling instructions

When the certificate is only for game equipment components, it does not apply.

12. Tests developed by other entities

Filling instructions

In the event that tests or essays are carried out by other entities, that is, they are not carried out by the laboratory that evaluates the gaming device, each of these tests and the identification of the entities that performed them must be included. In addition, if so required by the "Standard for Gambling Machines" or if it is not a requirement and the certifying entity wants to include it, a simple copy of the test certificate of the other entity must be attached in annexes.

*Among others, we can consider the tests of "Liquid Spills" (section 2.3.16 of the Standards of Gambling Machines ") and of "Connectors, fuses, power cable and on/off switch (On/Off)" and "Electrical safety" (sections 2.3.44 to 2.3.52 and 2.3.53 to 2.3.60 of the standards). **In the event that the certificate of these tests is provided by the manufacturer and is in a language other than Spanish, its translation into Spanish must be provided by the manufacturer.***

On the other hand, in the event that tests or essays are not carried out by other entities, the phrase "Regarding the gaming device evaluated in this certificate, tests or essays are not performed by other entities", or another equivalent phrase must be included. .

13. Notes regarding the gaming device

Filling instructions

Include specific comments to play device components that are deemed relevant.

Show when the software and/or hardware that is certified replaces another previously certified one and if it is recommended that it be withdrawn from the market (revoke). In addition, if it is considered pertinent, detail some aspects of the modifications that are not contained in the previous paragraphs of this certificate.

Mark the special notes in a visible way to facilitate their identification when reading the certificate.

14. Others

Filling instructions

Include other important topics for the gaming device components evaluated.

15. Background used in the preparation of the certificate

Filling instructions

Show the main information used to elaborate the certificate of compliance, among others, manufacturer's technical manuals, technical specifications and others that are considered relevant. Identifying them with the information that is available in this regard, that is, name, date, version or other information that facilitates their identification as a reference.

*In this way, a paragraph like the following could be considered: **“To prepare this certificate of compliance, the laboratory used the following main information:***

- **Manufacturer's technical manual: [Show if a manual provided by the manufacturer was used];***
- **Technical specifications: [identify at least the name of the documents];***
- **[Other documents that the laboratory considers relevant to mention (include examples)]”***

16. Terms and conditions

Filling instructions

Address the terms and conditions established by the laboratory.

In this regard, the laboratory must submit the specific terms and conditions for the SCJ to evaluate their relevance.

III. ANNEXES

Attach the annexes Showd for the certificate plus those deemed necessary, such as the certificates of other certifying entities.
